

## **2021 Fall I&C Learning Objectives**

- 1.) List 3 new considerations to explore when working with a client who either identifies as, or was socialized as, a different gender than you, the clinician.
  
- 2.) Describe at least 3 important clinical considerations for working with someone whose identity differs from you based on race, national origin, sexual orientation, gender identity, social class, disability, age etc. and so on.
  
- 3.) Articulate at least 2-3 NEW ethical considerations when working with specific populations (children and families, couples/divorce, LGBTQ, disabilities).
